

Martinsville Southern Connector Study Route 220 Draft Environmental Impact Statement

VDOT Extends Comment Period On Martinsville Southern Connector Study Until Further Notice

VDOT is seeking input on the Martinsville Southern Connector Study Route 220 Draft Environmental Impact Statement (EIS). The Draft EIS and supporting technical documents were made available on March 6, 2020, at which time the comment period opened. Due to the postponement of the public hearing in adherence to the Governor's orders and CDC guidelines, VDOT has extended the comment period until further notice. Additional information will be provided as it becomes available.

**Comment on Draft
EIS**
